- A completed application form
- Updated CV, including a list of publications, conference presentations etc.
- A 3-5 page sample research paper in English

Contact:

ewasteacademies@unitar.org

The E-Waste Academy for Scientists (EWAS) is a unique program that brings together social and physical science researchers, from across the globe.

Participants will have the chance to gain practical insights, share research ideas with domain experts and connect with an international group of peers.

The winners of the WEEkathon will be selected by a panel of expert scientists and professionals.
